Hub 2 Plus

Security system control panel

Capacity	**Wireless Ajax devices** up to 200 Specifically, up to 10 sirens and 5 range extenders. **IP cameras or DVRs** up to 100 ● Seamless integration with Dahua, Hikvision, Safire, EZVIZ, Uniview IP cameras, and DVRs. ● RTSP support. **Users** up to 200 ● Any number of admin users within the hub limit. ● PRO accounts for installers. ● PRO accounts for installation and monitoring companies. ● Access management for users. **Automation scenarios** up to 64 ● Alarm responses. ● Scheduled actions. ● Security mode changing reactions. ● Temperature changing reactions. ● Humidity changing reactions. ● Reactions to changes in CO2 concentration. ● Reactions to pressing Button. **Security groups** up to 25 **Rooms** up to 50

Wireless communication	**Jeweller communication technology** Proprietary wireless communication technology to transmit alarms and events. **Key features:** ● Two-way communication. ● Advanced anti-sabotage. ● Block encryption featuring a dynamic key. ● Instant notifications. ● Remote configuration in the Ajax apps. **Frequency bands** 866.0–866.5 MHz 868.0–868.6 MHz 868.7–869.2 MHz 905.0–926.5 MHz 915.85–926.5 MHz 921.0–922.0 MHz Depends on the sales region. **Maximum effective radiated power (ERP)** up to 20 mW Featured automatic power control to reduce power consumption and noise interference. **Radio signal modulation** GFSK **Radio signal range** up to 2,000 m/6,500 ft Between the hub and connected devices (in an open space). Maximum range depends on the connected device. **Polling interval** from 12 to 300 s Adjusted by PRO or user with admin rights in the

Ajax apps.

Encrypted communication
All the data stored and transmitted are protected by block encryption with a dynamic key.

Frequency hopping
To prevent radio interference and radio signal interception.

Wings communication technology
Proprietary wireless communication technology to transmit photo verifications.

Key features:

- Two-way communication.
- Block encryption featuring a dynamic key.
- Advanced anti-sabotage.
- Package re-uploading in case of transmission errors.
- Photo delivery check.

Frequency bands
866.0–866.5 MHz
868.0–868.6 MHz
868.7–869.2 MHz
905.0–926.5 MHz
915.85–926.5 MHz
921.0–922.0 MHz
Depends on the sales region.

Maximum effective radiated power (ERP)
up to 20 mW
Featured automatic power control to reduce power consumption and noise interference.

Radio signal range
up to 1,700 m/5,500 ft
Between the hub and connected devices (in an open space). Maximum range depends on the connected device.

Encrypted communication
All the data stored and transmitted are protected by block encryption with a dynamic key.

Frequency hopping
To prevent radio interference and radio signal interception.

Recommendations	The device operating voltage is 110–240 V~. Hub is designed for indoor installation only.
Communication channels	**Ethernet** 1 8P8C socket Up to 100 Mbps. **Cellular** 2 micro-SIM slots **Cellular frequencies** 2G GSM900/DCS1800 (B3/B8) 3G WCDMA 850/900/2100 (B1/B5/B8) 4G (LTE) FDD B1/B3/B5/B7/B8/B20 **Wi-Fi** 802.11 b/g/n module up to 600 Mbps. **Automatic switching between communication channels** Instant switching between Ethernet, Wi-Fi and SIM. Instant switching between 4G (LTE), 3G, and 2G networks of one SIM. Switching between SIMs takes up to 4 minutes. **Communication channels prioritization** 1. Ethernet 2. Wi-Fi 3. Cellular connection Communication channels work in parallel to increase the system's reliability. Most of the data is transmitted via Ethernet.
Notifications	**Supported notification types** ● Push-notifications ● SMS ● Calls **Event types** ● Alarms ● Malfunctions ● Security mode changing ● System events

	- Non-security alerts - Automation devices' events The notification types are configured individually for each user.
Photo verification	**Photo verification types** - Photo by alarm - Photo by scenarios - Photo on demand More about photo by scenario More about photo on demand **Photo delivery time** up to 9 s by default. **Photo resolution** up to 640 × 480 pixels Depends on the detector. **Number of photos in a series:** from 1 to 5 pictures
Monitoring	**Supported protocols** - SIA (DC-09) - SurGard (Contact ID) - ADEMCO 685 - Other proprietary protocols **Event types** - System alarms and events - Panic button coordinates - Photo verification
Power supply	**Main** 110–240 V~, 50/60 Hz Up to 10 W of mains power consumption. **Backup** Built-in backup battery: Li-ion 3 A·h Up to 15 hours of offline operation when Ethernet is disconnected. **Alternative** 6 V⎓ Requires the 6V PSU for Hub 2/Hub 2 Plus/ReX 2

	alternative power supply unit; sold separately.
Anti-sabotage	**Tamper alarm** The system receives notifications about attempts to detach the device from the surface or remove it from the mounting panel. **Protection against spoofing** devices' authentication Proprietary authentication algorithms make it impossible to spoof the hub or connected devices. **Frequency hopping** The users and the security company receive notifications in case of jamming or when the hub loses connection with the devices.
Enclosure	**Dimensions** 163 × 163 × 36 mm/6.42" × 6.42" × 1.42" **Weight** 351 g/12.77 oz **Operating temperature range** from −10°C to +40°C/ 14°F to 104°F **Operating humidity** up to 75% **Protection class** IP20
Colours	**Black** **White**
