

StreetSiren DoubleDeck

Wired siren with a clip lock for a branded faceplate. Designed for outdoor and indoor use

Additional promotion of security services

StreetSiren DoubleDeck is designed not only to inform users about alarms and events but also to advertise security services with a front plastic panel – Brandplate. Security service providers can print their logo and contact information on the front panel. Located at the building outside, it will serve as an additional marketing channel that reaches new customers: neighbours and visitors.

IP54	Promotion of security or installation services	Adjustable volume of alarms and notifications

How to order Brandplate

Brandplate is sold in batches (10 pcs) separately from sirens. The panel is available in black or white and compatible with wired and wireless StreetSiren DoubleDeck. You get a free print of one design on all panels when ordering four Brandplate batches (40 pcs) or more. Compose your Brandplate layout in 3 steps with a Brandplate constructor.
